

As we continue through our Architecture Study, we will explore building materials, design options and the buildings around us.

Our next study, will be will be very different, but it's sure to kick us into active learning!

THIS MONTH

- Black History Month
- Lunar New Year.....1st
- Groundhog Day.....2nd
- Valentine’s Day Party.....14th
- Lantern Festival.....15th
- President’s Day.....21st

NEXT MONTH

St. Patrick’s Day

NEWS

Students should continue to wear weather appropriate attire every day, so we can enjoy outside as often as possible.

Thanks & Love, Miss Brittany

CENTERS

Reading	Fine Motor	Blocks	Dramatic Play	Art	Science
In the Reading Center, we explore the world of books and feel safe and secure as we are introduced to reading.	We learn fine motor skills by using our fingers and hands in creative ways. These activities like puzzles and board games that may be worked on alone or with friends.	In the Blocks Center, children can work with others or alone to construct their own creations.	The Dramatic Play Center is filled with props and dress-up clothes to encourage imagination.	The Art Center is a place for children to create and enjoy on a sensory level.	In the Science Center we can discover, examine, predict, hypothesize, and experiment with many facets of the world around us.
